

Scout Catapults

Scouts 
37th Huddersfield
(Almondbury) Scout Group

Catapult 1

You will need 12 sticks and 3 rubber bands

Pile 10 sticks on top of each other and fasten one side with an elastic band.

Slide a stick between the last stick and second to last.

Your catapult should look like this now :)

Catapult 1

You will need 12 sticks and 3 rubber bands

Place the last stick over the other sticks like this.

Fasten the last elastic band around the sticks.

Your catapult should look like this.
The bottle lid fastened with hot glue....be careful with this.

(Almondbury) Scout Group

Catapult 2

You will need 11 sticks and 16 bands

Place a stick, with the holder glued to it, through the catapult.

The bottom of this stick should be on top of the cross member stick

Use an elastic band on the bottom of the stick and connect to the rear corners of the frame....otherwise your catapult will not be able to be fired.
